

IMPORTANT SAFETY PRECAUTIONS

Before using this Mine Product, read all instructions and cautionary markings in this manual and on the device. When using an electrical appliance, basic precautions should always be followed:

WARNING

TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK, OR INJURY:

- Do not leave product when plugged in. Unplug from outlet when not in use and before servicing.
- Indoor Use ONLY. Do not use outdoors or on wet surfaces. Store Indoor ONLY.
- Do not allow to be used as a toy. Close attention is necessary when used by or near children.
- This product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Use this device only for its intended function and do not use attachments not recommended by the authorized Marq Labs manufacturer.
- Do not use the device if the cord is damaged. In the event of damage discontinue use immediately. If the supply cord is damaged, it must be replaced by the authorized Marq Labs manufacturer.
- If device is not working as it should, has been dropped, damaged, left outdoors, or dropped into water, do not use, contact Mine Customer Care via the website or regional telephone number.
- Do not pull or carry by cable, use cable as a handle, close a door on cable, or pull cable around sharp edges or corners. Keep cable away from heated surfaces.
- Do not unplug by pulling on cable. To unplug, grasp the plug, not the cable.
- Do not handle plug with wet hands.
- Turn off all controls before unplugging.
- Do not spray flammable or combustible liquids, such as gasoline, or use in areas where they may be present.
- Do not use without the filter in place.
- Do not use an extension cord unless the cord complies with local region electrical safety standards.
- Periodically inspect the power cord for signs of damage
- Do not use a fluid having a flash point higher than 60°C. When a combustible liquid is sprayed there can be danger of fire or explosion, especially in a closed area. Read instruction manual before operating.
- Fuse is only able to be replaced by manufacturer.
- Do not use in extreme temperatures. For use at room temperature (18°C/64°F to 24°C/75°F).

IMPORTANT: This device is designed for 220-240V or 120V respectively depending on region. Always check that the voltage of your electricity supply matches the voltage of your Mine device.

- Do not use this product with a voltage inverter or any device designed to convert the electrical supply to 220-240V or 120V from a different source.
- Always ensure that your appliance is connected to a properly earthed power supply. Your Mine Device is a class II electrical appliance.

Do not pull on cables

Do not submerge in water or get wet

Do not use near open flames

CUSTOMER CARE

Thank you for choosing to purchase this Mine product. Your Mine device will be covered for parts only for 12 months from the date of purchase, as detailed in the terms of the guarantee on minebodyskin.com.

If you have a query about your product, contact Mine by going to the website minebodyskin.com.

Most queries can be solved by our frequently asked questions online. Alternatively you can contact your local Mine representative in your region.

Please state your serial number for any warranty claims you have. Your serial number can be found on the rating plate, which is on the base of your machine or below:

BRONZE BABE PROFESSIONAL SPRAY TAN KIT

BRONZE BABE OPERATION MANUAL

DESIGNED BY THE SALON EXPERTS AT MINE

mine[®]
TAN.BODY.SKIN

The Bronze Babe has been designed by the team at Mine, the experts in professional tanning equipment, to give you the perfect spray tan.

ASSEMBLY

- To begin, attach the Bronze Babe spray tan gun to the Bronze Babe mini turbine by inserting the bottom of the handle of the spray tan gun into the connector of the mini-turbine.

- Attach the Bronze Babe spray tan gun with the 'quick-connect' style fitting. This will lock the spray tan gun firmly into place.

- Once the spray tan gun is attached to the mini-turbine, insert the power cord into the device and in the wall plug and turn power on at the wall switch.

REMOVING THE SPRAY TAN GUN

To remove the Bronze Babe spray tan gun for cleaning and to fill the solution cup, detach the gun with the 'Quick Connect' fitting and remove it from the mini-turbine unit.

USING YOUR BRONZE BABE

1. Prior to tanning, make sure your skin is well exfoliated. Exfoliating allows for a smoother application as well as helping the tan to fade evenly.
2. Ensure skin is completely clean and dry. Do not apply any moisturizers, oils, deodorants or perfumes prior to use. Waxing or shaving should be done at least 24 hours prior to tanning.
3. Put hair up and cover with plastic cap, remove all jewelry.
4. **SETTING SPRAY PATTERN**

Adjusting the spray-pattern nozzle of your Bronze Babe to suit your preferred style of spray tanning.

SPRAYING SIDE TO SIDE ACROSS THE BODY

SPRAYING SIDE TO SIDE ACROSS THE BODY

Set the nozzle fan 'Horizontal'. This spray pattern is perfect for spraying side to side ie. left to right - right to left across the body.

SPRAYING UP & DOWN THE BODY

SPRAYING UP & DOWN THE BODY

Set the nozzle fan 'Vertical'. This spray pattern setting is perfect for spraying up and down, top to bottom of the body.

5. OPERATION

POWER ON : AIRFLOW

Turn the device 'on' by pressing the on switch. The Bronze Babe has an intelligent Air-Smart Switch, so by just turning it on, it controls the airflow for the perfect spray. This creates flawless spray tanning results every time.

6. SPRAY TAN TECHNIQUE

Holding the Bronze Babe approximately 10 -15cm (4 - 6") away, start at the feet and work up, using sweeping, steady motions, keeping the Bronze Babe moving at all times as holding in one spot too long may result in dark spots.

If a dark spot occurs, smooth out immediately with the Application Mitt and continue spraying. Work your way up the entire body, making sure to get complete and even coverage. Avoid spraying directly your heels, knees, and elbows to prevent deeper tanning in these areas.

For best results refer to Mine's Picture Perfect Finish, How to Spray Tan Like a Professional insert for recommended spray tan poses' for the perfect spray tan.

7. Allow tan to dry before wearing clothing. Follow your preferred product instructions for best results when applying the spray tan. Avoid swimming or exercising, for the next 24 hours.

PRECAUTION

IF YOUR SKIN IS VERY SENSITIVE IT IS ADVISABLE TO CONDUCT A PATCH TEST A MINIMUM OF 12 HOURS PRIOR TO THE APPLICATION OF THE TAN.

CLEANING YOUR BRONZE BABE FILTER

The Bronze Babe Filter is located at the front of the unit as pictured below.

IMPORTANT! Please disconnect from supply circuit before cleaning or removing filters.

1. Remove the filter cover from the mini turbine.
2. Wash under cold water. Do not use detergents to clean the filter.
3. Please leave to dry completely.

IMPORTANT
WASH MINI COMPRESSOR FILTER WITH
WATER AT LEAST EVERY 6 MONTHS

CLEANING YOUR BRONZE BABE SPRAY TAN GUN

Clean your Bronze Babe after each use. Do not use any alcohol, acetone, petrol or any abrasive-cleaning agents.

1. Remove the spray tan gun from the Bronze Babe Mini Turbine.
2. Unscrew the cup from the Spray Gun and empty any un-used solution from the cup.
3. Rinse the empty solution cup with warm water until clean and then fill the cup about ¼ full of warm water.
4. Insert the cup and screw tightly, back into the spray tan gun and re-connect to the mini-turbine.
5. Turn on your Bronze Babe and direct the spray tan gun into the sink and spray the clean water through until the cup is empty. This will clean through the needle and out to the spray-pattern nozzle.
6. Disconnect the spray tan gun from the mini turbine and unscrew the cup.
7. Wipe all areas dry with a cloth including the cup and Bronze Babe ready for the next use.

IMPORTANT! You must not submerge the spray gun under water. If your Bronze Babe has excess spray solution, wipe down with cleaning wipes. Alternatively you can use a smooth cloth (avoid anything abrasive) with a general glass cleaner to maintain the gloss finish.

STORAGE

1. Always allow the Bronze Babe to cool down before storing away.
2. When the Bronze Babe has cooled down, fold the power cord in the same way as it was first delivered in its packaging. Do not wrap the power cord around the Bronze Babe as this can strain the cord and cause premature power cord failure.

MANUFACTURER'S GUARANTEE

All Mine devices are individually tested before leaving the factory. However in the unlikely event of the product providing defective due to faulty workmanship or materials, then, at its sole discretion, Mine will repair or replace the product at no charge with an identical or equivalent product within one year from the original date of purchase. A replacement product assumes the remaining warranty of the original product, which ever provides longer coverage for you. When a product is exchanged, any replacement item becomes your property and the replaced item becomes property of Mine.

To claim under this guarantee please visit minebodyskin.com/warranty and follow the on-screen instructions to complete your return. Please ensure that you include a proof of purchase with any returned product.

This guarantee only applies to genuine Mine Pro Tools purchased through Mine approved stockists, and does not cover products repaired or served by anyone other than Mine Pro Tools personnel and Mine Pro Tools representatives. Note that this guarantee may be invalidated were serial numbers or identification have been erased, damaged or modified. This does not affect your statutory rights.

The guarantee does not include:

1. Damage caused by misuse, improper treatment or violent usage.
2. Damage caused by failure to comply with these instructions for use.
3. Damage caused by connecting this appliance to the incorrect voltage.
4. Damage caused by connecting accessories supplied by other manufacturers.
5. Minor faults, which do not significantly affect the value of the device or its effective use.

Australia Only.

Our goods come with guarantees that cannot be excluded under the Australia Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

TROUBLESHOOTING - FAILURE TO OPERATE

In the unlikely event that your Bronze Babe device does not operate correctly:

1. Check that the Bronze Babe device and main power supply are switched on, and that power is available.
2. For UK plugs, please ensure that the fitted fuse is intact and functioning; if it is not, replace it with an identically rated British Standard Fuse.

BRONZE BABE WON'T SPRAY - HANDY TIP

In the case your Bronze Babe turns on but will not spray, The "Duck Valve" may be blocked.

1. Take off the cup and flip the spray tan gun over to look inside the top of the solution chamber.
2. You will see the white dip tube that goes into the solution and next to that there should be a small black rubber valve.
3. With your fingers, pinch this valve so you can see the small slit open up (looks like a birds beak).
4. Replace the solution cup and test the gun using some warm water and see if this solves the problem.
